As re-drafted the bill would create the corporation with \$500,000,000 capital and power to issue \$4,000,000,000 in bonds to be advanced to war and contributory industries.

ALL IN READINESS FOR BIG SHOW

With practically the entire house sold out and the stage settings all arranged, the big wrestling tournament, which starts promptly at 8:30 p. m. at the Airdome tonight, promises to be a red letter event in sport-dom for Tonopah.

The first event of the evening will be the first fall in the main contest between William Berne, the Russian Lion, and Crith Theophilus, the Terrible Greek, who are contesting in a great catch-as-catch-can wrestling match, best two out of three falls, with no holds barred, rough and tumble, winner take all, to a finish.

These men met at the Big Casino last month, when the Greek undertook to throw Berne twice in one hour, but failed, and as considerable bad feeling resulted over this match the business men decided it would be a splendid card for Washington's birthday.

Theophilus has trained at the Los Angeles Athletic club for the past month in anticipation of a gruelling battle and states he is in the best shape of his career and expects to be returned the winner. Berne, who did his preliminary training at the Olympic club in San Francisco, has been working hard in this city since his match with Ajax and also states he will have no cause for complaint if the sturdy Greek beats him.

TEACHING PATRIOTISM A MEASURE ADVOCATED

(By Associated Press.)

CHICAGO, Feb. 22.—Federal control of education, financing of educational institutions by the government, the teaching of patriotism directly as part of the national system and requiring a patriotic test of teachers themselves, were the principal measures advocated by the educational contingent of the delegates to the congress of National Service of the National Security league today.

The meeting was presided over by Dr. Robert M. McElroy, head of the department of politics and history at Princeton university, who succeeded President Wilson in that chair. He advocated the federal control of education "by which those fundamental things which make an American of a foreigner may be inculcated into the minds of each and every person who is born or who comes into this country."

SERIOUS CASES WAIT PRESIDENTIAL WARRANT

(By Associated Press.)

CAMP LEWIS, Feb. 22.—Four national army soldiers are being held in the guard house here awaiting a presidential warrant for internment as enemy aliens, who plotted to shoot their officers the first time they got into action in Europe and deliver all the American soldiers in their command to the German army.

The evidence against them is said to be conclusive. Their names are withheld pending receipt of advices from Washington.

Another enemy alien is Mike Belian, an Austrian drafted from Butte, who is alleged to have said that all Americans are fools and hoped that Germany will give them a good licking. He will be discharged and arrested on a presidential warrant.

Two hundred have been weeded from the ranks of the ninety-first division on the general clean-up of enemy aliens at Camp Lewis. Thirty-four were discharged today. The disposition of their cases rests with the federal authorities.

AERO CLUB WANTS

(Continued From Page One.)

Dr. Robert McElroy denied published statements that all the military aid Joffre asked of the United States was two divisions, consisting of a total of 30,000 men. What Joffre did ask, he said, was 30,000 men "at once," and added that the French leader got them.

"Today we are a people of divided counsel," he declared, "thinking in terms of ancient racial prejudices and hereditary animosities brought from the old world. The problem of patriotism is how to make us one people, looking not upon our diverse pasts, but upon our common future. We are facing the gravest crisis in our history, in all history, and our first task is to create, by propaganda, unity of thought concerning the meaning of the war; for unity of thought is essential to unity of action, in a free government. Had we succeeded, by the slow process called education, in implanting in the minds of our people the ideas which the present emergencies demand, there would today be no need of the quick process of propaganda, since propaganda is necessary only in nations whose educational systems have failed."

"But by propagandas we have secured unity of thought and unity of action, and thereby will win the war. When we have crushed militarism, we shall still have to face the problem of providing an educational machinery which will insure that, when our next crisis comes, we shall not have to use propagandas methods to make us think as a nation. We must prove

AMUSEMENTS

AT THE BUTLER.

The man who "owns the town" because of his millions nearly crushes the man whose daughter spurns his worthless son, in "When Men Are Tempted," a Blue Ribbon feature, today. But John Burt, to protect the girl when her name is involved by the unprincipled son of the millionaire, accepts the brand of a criminal and hides himself in a western mining camp. The girl follows and clearing his name aids him in his fight to recover the property which the millionaire had stolen from her father. The cast is of unusual strength, the leads being taken by Mary Anderson and Alfred Whitman, who scored noted successes together in several other productions. A play that fits brightly into the delights of youth to the vital situations of maturity. A story of two men and a girl, and the web fate wove about them. Also a one-reel Big V comedy, "Wiles and Wedlock," a comedy of cheerfulness and joy in every inch.

Tomorrow, a magnificent picture of the world's most famous story, "Jack and the Beanstalk," a film that cost half a million dollars to produce, with its 1300 children, its diminutive stars, its 8½-foot giant, its castle, its walled city, built solely for this wonderful production. It is the most wonderful aggregation of juvenile performers ever gathered before any motion picture machine. First show at 6:45 sharp, second 8:30. Special admission for children at the matinee of 11 cents; evening, children 15c, adults 20c and 25c.

DETERMINED TO SERVE.

Sherwin Lowe, son of Mr. and Mrs. A. E. Lowe, returned this morning from the San Diego cantonment. He enlisted in Tonopah shortly after the outbreak of the war, but the final examination caused him to be rejected because of his eyes. Later he made another effort, going to San Diego to enter the service, but again he did not succeed in passing. While in the southland Mr. Lowe met Don Lewers and a number of other Tonopah boys. They all enjoy soldier life and hope the time will come soon when they will be given opportunity to go over the top. Sherwin, who has been employed for several years in the Belmont mill, says he will not be discouraged with two tries, but will endeavor later to join the colors.
